About Canton Fair (China Import & Export Fair)

The Canton Fair, started in 1957, is China's biggest and most important trade event. Held twice a year in Guangzhou, during spring and autumn, it brings together buyers and sellers from around the world.

It has the longest history, largest scale, and the widest variety of products among all trade fairs in China. With participants from over 220 countries, it's a key platform for international trade and business cooperation.

For the past 68 years, the Canton Fair has helped connect China with the world, supporting trade growth and building global partnerships. It's often called the "barometer of China's foreign trade", showing the strength and direction of China's economy.
